# NIA Training and Career Development Landscape

## Key

- Diversity
- ◆ Clinician-scientist
- ▶ International
- \* Institutional
- \*\* In-person NIA program

## Acronyms

- AD:** Alzheimer's Disease
- ADAR:** Advancing Diversity in Aging Research
- ADRD:** Alzheimer's Disease and Related Dementias
- AREA:** Academic Research Enhancement Awards
- BRAIN:** Brain Research through Advancing Innovative Neurotechnologies
- DSPAN:** Diversity Specialized Predoctoral to Postdoctoral Advancement in Neuroscience Award
- ESI:** Early Stage Investigator
- GEMSSTAR:** Grants for Early Medical/Surgical Specialists Transition to Aging Research
- MOSAIC:** Maximizing Opportunities for Scientific and Academic Independent Careers
- NIA:** National Institute on Aging
- NRSA:** National Research Service Award
- REAP:** Research Enhancement Award Program
- REDI:** Research and Entrepreneurial Development Immersion
- SEPA:** Science Education Partnership Award

## Why seek diversity supplements?

- Expand the aims of the parent grant
- Recruitment tool for promising emerging investigators from backgrounds underrepresented in biomedical and behavioral sciences
- Protected research and career development time

# What is a Diversity Supplement (PA-23-189)?

- NIA's Diversity Supplement program supports the development of eligible trainee-candidates who seek independent and productive **careers in research on aging** and enhance diversity in the biomedical workforce.

Diversity Supplements are **not grants**. Research Supplements To Promote Diversity in Health-Related Research are **funds added to an existing grant** to recruit and support **scientists from underrepresented groups** in biomedical research.

# NIA Diversity Supplements at a Glance (PA-23-189)

## Submission Deadlines

- Rolling Basis
- Applications are reviewed within 2-3 months of receipt
- Applications seeking consideration before September 30 must be received by **May 1**

## Clinical Trial

Not Allowed

## Parent Grant

- Must have at least two years of active status left
- Supplements are not considered for grants in a no-cost extension
- May support more than one individual on a diversity supplement

## Principal Investigator (PI)

Must be PI or contact PI on an active parent grant

# NIA Diversity Supplements at a Glance (PA-23-189)

## Candidates

- Individuals from **groups that are underrepresented** in the biomedical, clinical, behavioral and social sciences
- High-school students, undergraduates, postbaccalaureate, Master's, PhD, postdoctoral, and eligible new investigator candidates
- Established investigators who are or become disabled are eligible to apply for a diversity supplement to support reasonable accommodation
- Must be U.S. citizens or permanent residents

## Award Budget

Varies based on career level of the candidate

## Award Duration

2 years or less

# Application Content

See program announcement (under Application and Submission Information) to identify the components of a supplement request and work with your business office to use the correct forms. NIA-specific guidance requires:

- **Research Strategy** (limit 5 pages)
- **Candidate Biosketch**
- **Mentor(s) five-page Biosketch(es)**
- **Candidate Eligibility Statement** (signed by the PI and an institutional official)
- **Candidate Transcripts** (for high school, undergraduate, post-baccalaureate, post-master's degree or graduate students *only*)
- **Letters of Support** (optional)

# The 5-page Research Strategy should include

Independent, specific, and appropriate for the stage of the individual's professional development

**Research Plan**

Detailed, specific, and tailored to the individual needs of the candidate (e.g., grant applications, courses, conferences, manuscripts, professional development, etc.)

**Training and Career Development Plan**

Details of the interactions between the candidate, mentor(s), and research team, describing the role of each member of the mentoring team

**Mentoring Plan**

# Candidate and Mentor(s) Biosketches

- **Candidate Biosketch:** Include **candidate statement** describing the candidate's future goals in research and how the proposed training will facilitate their immediate, near-term and long-range career goals.
- NIA supports the development of eligible trainee-candidates who seek independent and productive **careers in research on aging.**
- **Mentor(s) five-page Biosketch(es):** Include a description of the mentor's track record and **mentoring goals** specific to the candidate.
  - Describe the outcome or progress of prior diversity supplement funding, including the diversity scholar's current status (provide full names, title, and institution).
  - If other investigators contribute to the research mentoring, describe their role and include a biosketch.

# Candidate Eligibility Statement

The application should include a **signed statement from the PI and an institutional official** establishing the candidate's eligibility for support under this program. The statement must include:

- Clearly presented information on **citizenship** of the candidate
- Information on the nature of the candidate's disability, circumstances, background, or **characteristics that confer eligibility** under this program
- A description of any **current or previous PHS research grant support** the candidate has received, including start and end dates. Candidates receiving continuing PHS support are generally not eligible

## Other PHS Support

- Candidates receiving continuing PHS support (including the parent grant) are generally **not eligible** for a diversity supplement.
- Candidates currently appointed to an **Institutional National Research Service Award (NRSA)** are eligible **once they have completed their appointment**.
- Details specifying current PHS funding must be included in the **candidate eligibility statement** at the time of submission of the supplement application.

# Allowable Costs

\*FY2023 NRSA Stipends: [NOT-OD-23-076](#)

	High School Students	Undergraduate Students	Baccalaureate and Master's Degree Holders	Graduate (Predoc toral) and Health Professional Students	Individuals in Postdoctoral Training	Investigators Developing Independent Research Careers
<b>Salary and Fringe Benefits</b>	Institutional salary rates; rates that exceed minimum wage must be justified	Institutional salary rates; rates that exceed \$12 per hour must be justified	Institutional salary rates; total compensation (salary, fringe benefits, and tuition remission) cannot exceed zero level NSRA postdoc stipend*	Institutional salary rates; total compensation (salary, fringe benefits, and tuition remission) cannot exceed zero level NSRA postdoc stipend*	Institutional salary rates; in accordance with maximum level NRSA postdoc stipend at the time of appointment*	Up to \$75,000 salary plus fringe benefits
<b>Supplies and Travel</b>	\$1,000 per year	\$200 per month	\$3,000 per year	\$4,000 per year	\$6,000 per year	\$10,000 per year
<b>Tuition</b>	N/A	N/A	Allowable	Allowable	N/A	N/A
<b>Period of Support</b>	Equivalent of at least 3 months of full-time effort (2 years encouraged)	Equivalent of at least 3 months of full-time effort (2 years encouraged)	One to two years	Typically, two years	Typically, two years	<b>Short-term:</b> Full-time 3-5 months each year over a maximum period of 4 years. <b>Long-term:</b> up to 2 years at a minimum of 75% effort or 9 person months of a 12-month calendar appointment.

# Examples of Unallowable Costs

- Equipment#
- Publication Costs
- Consultant Services
- Automatic Data Processing (ADP)/Computer Services
- Equipment or Facility Rental/User Fees
- Software and Training
- Technical Support
- Human Subject Payments
- Research Incentives
- Gift Cards
- Transcription Services

**#Reasonable Accommodations:** Funds may be requested to make changes or adjustments in the research setting that will make it possible for a qualified individual with a **disability** to perform the essential functions associated with their role on the project. See Program Announcement for specific types of accommodations that may be provided under these awards.

# Examples of Unallowable Costs

- Computing and Communication Devise Services (CCDS)
- Animal Costs
- Lab Fees
- Sample Analysis Fees
- Mailing, Postage, Printing Fees
- GRE/MCAT Preparation Courses
- Data Network Recharge
- Memberships
- Participant Incentives
- Tuition for Postdocs or Investigators
- Health Insurance not Included in Fringe Benefits
- Telecommunication Equipment or Services

***Research costs are expected to be supported from the parent grant***

# Additional Information (provide as relevant):

***For research conducted at a site other than the grantee institution:*** A signed letter from the other institution where the research would be conducted should be provided. Two sets of budgets, one for the parent institution and one for the subcontract institution.

***For a supplement based on disability:*** The institution should indicate what, if any, reasonable accommodations the institution has supported or plans to provide along with a full description of how any additional support for accommodation would be used.

***For a second diversity supplement:*** Candidates for a second diversity supplement should outline clearly in their biographical sketch their accomplishments during the prior supplement period and the reason(s) for a second supplement request at this later stage in their training.

# Review and Funding

- NIA accepts applications on a **rolling basis** and reviews applications in a monthly cycle.
  - Typical timeline from submission to award is 3-4 months.
  - The submitted application package is reviewed within the NIA Division of Extramural Activities (DEA).
  - Review outcome includes written feedback.
- Funding decisions are generally dependent on:
    1. The merit of the application and the proposed project activities (i.e., the research and career development/mentorship plan).
    2. The potential for continued research progress of the candidate.
    3. The availability of funds.
  - Unsuccessful applications may be **resubmitted once**.

# Common Issues

- Misalignment of goals
- Not enough aging focus
- No independent research plan
- Not enough detail in research plan
- Not enough detail in the training and career development plan
- Not enough detail on interactions between candidate and mentor(s)
- No clear timeline for research, training, and career development activities
- No clear pathway to independence in terms of grant applications
- Not submitting full-year budgets
- Unallowable costs in budget upon which training and career development activities depend on

***Diversity Supplements are all about the candidate's path to independence in aging research***

# Other Supplements

Re-Entry and Re-Integration Supplements  
([NOT-OD-23-170](#))

- Support **individuals with high potential to re-enter or re-integrate** into an active research career after an interruption

Continuity and Retention Supplements for K ([NOT-OD-23-031](#)) and First-Time RPG ([NOT-OD-23-032](#))  
Awardees

- Support the PI's research during **critical life events** through additional personnel, computational services, or supplies and equipment
