

Implementation Science Institute 2019

Foundations of Implementation Science and Examples of Research Programs Wednesday, May 29

9:00-9:55	Introductions and Getting To Know Each Other
	<i>Rinad Beidas, PhD, Meghan Lane-Fall, MD, MSHP, Judy Shea, PhD</i>
10:00-11:00	Introduction to Implementation Science
	<i>Wynne E. Norton, PhD, Program Director, Implementation Science Team, Office of the Director in the Division of Cancer Control and Population Sciences, National Cancer Institute (NCI)</i>
11:00-11:15	Break
11:15-12:00	Models and Frameworks
	<i>Rinad Beidas, PhD, Associate Professor, University of Pennsylvania</i>
12:00-12:45	Lunch
12:45-1:25	Study Design
	<i>Meghan Lane-Fall, MD, MSHP, Assistant Professor, University of Pennsylvania</i>
1:30-2:15	Methods
	<i>Judy Shea, PhD, Professor, University of Pennsylvania</i>
2:15-2:30	Break
2:30-3:15	Small Group Work – Begin Applying Concepts and Ideas
3:20-4:00	Implementation Outcomes
	<i>Judy Shea, PhD, Professor, University of Pennsylvania</i>
4:00-5:00	Implementation Strategies
	<i>Rinad Beidas, PhD, Associate Professor, University of Pennsylvania</i>

Advanced and Workshopping Thursday, May 30

9:00-9:15	Check In on Concepts and Group Discussion
	<i>Rinad Beidas, PhD, Meghan Lane-Fall, MD, MSHP, Judy Shea, PhD</i>
9:15-9:55	Deimplementation

	<i>Christopher Bonafide, MD, Assistant Professor, University of Pennsylvania</i>
10:00-10:55	Panel – Using Implementation Science in the Real World
	<i>Charlotte Woods-Hill, MD, Attending Physician, Children’s Hospital of Philadelphia</i> <i>Jennifer S. Myers, MD, Professor, University of Pennsylvania</i> <i>Srinath Adusumalli, MD, MSc, FACC, Assistant Professor, University of Pennsylvania</i>
11:00-11:15	Break
11:15-12:00	Example of a research program in implementation science (behavioral health)
	<i>David Mandell, ScD, Professor, University of Pennsylvania</i>
12:00-12:45	Lunch
12:45-1:45	Panel – Quality Improvement and Implementation Science – Two sides of the same coin?
	<i>Michael Posencheg, MD, Professor, University of Pennsylvania</i> <i>Meghan Lane-Fall MD, MSHP, Assistant Professor, University of Pennsylvania</i> <i>Scott Falk, MD, Associate Professor, University of Pennsylvania</i>
1:50-2:45	Applying nudges and behavioral economics to implementation science
	<i>Mitesh S. Patel, MD, Assistant Professor, University of Pennsylvania</i>
2:45-3:00	Break
3:00-4:00	Small Group Work
4:00-5:00	Example of a research program in implementation science (pediatric asthma)
	<i>Tyra Bryant-Stephens, MD, Attending Physician, Children’s Hospital of Philadelphia</i>

**Advanced and Workshopping
Friday, May 31**

9:00-9:10	Check In on Concepts and Group Discussion
	<i>Rinad Beidas, PhD, Meghan Lane-Fall, MD, MSHP, Judy Shea, PhD</i>
9:10-9:55	Innovation
	<i>Roy Rosin, MBA, Chief Innovation Officer, Penn Medicine</i>

10:00-10:55	Example of a research program in implementation science (dissemination and cancer care)
	<i>Linda Fleisher, PhD, MPH, Senior Scientist, Children's Hospital of Philadelphia</i>
11:00-11:15	Break
11:15-12:00	Grant Writing in Implementation Science /// Ethics in Implementation Science (Choose 1 session)
	<i>Rinad Beidas, PhD, Associate Professor, University of Pennsylvania</i> <i>Meghan Lane-Fall MD, MSHP, Assistant Professor, University of Pennsylvania</i> <i>Judy Shea, PhD, Professor, University of Pennsylvania</i>
12:00-12:45	Lunch
12:45-1:35	Example of a research program in implementation science (tobacco cessation and cancer care)
	<i>Robert Schnoll, PhD, Professor, University of Pennsylvania</i> <i>Frank Leone, MD, MS, Professor, University of Pennsylvania</i>
1:40-2:40	Example of research program in implementation science (critical care)
	<i>Meghan Lane-Fall MD, MSHP, Assistant Professor, University of Pennsylvania</i>
2:45-3:00	Break
3:00-4:00	Conclusion, Final Questions and Resources
	<i>Rinad Beidas, PhD, Meghan Lane-Fall, MD, MSHP, Judy Shea, PhD</i>
